Completion Summary

Programmes closed or architecturally complete

- **BL-A / BL-B** — repository synchronization and Pillow doctrine batches
- **Pillow Runtime PILLOW-002→019** — Layer 1 complete
- **Executive Intelligence Library EIR-v1.0** — certified
- **UX Master UX-001→023** — frozen V1 contract
- **G3 Executive AI Engine suite G3-01→G3-10** — closed
- **G4 Cockpit G4-02→G4-10** — complete
- **EKLS canonical specification** — permanent
- **Registry EA-002→007** — certified (conditions on EA-007)
- **REAL-001→100** — built/wired in Journey (live revenue separate)
- **G5-00 Business Automation architecture** — specification only

Active or open workstreams

- **BL-C** continuous improvement — enhancement registers accumulating
- **V1 Certification Mode** — blockers B5–B8 open
- **PROOF-001 / MS-A / GK-GOLIVE** — live commercial gates
- **Pillow Layer 2** — Executive Reflection and learning runtime deferred
- **G5-01+** — Business Automation implementation not started
- **B6** — mixed live auth proofs; production vault path certified via B6-04B
- **REAL namespace conflicts** — four labels deferred post-V1

Superseded documents (retained in repository)
